

Joint Network Conference

10th - 14th May 2023

Sofitel Singapore City Centre, Singapore

Welcome Message

Joseph Tan Jude Benny LLP is honoured to host the ADVOC Joint Conference 2023, from 10 May 2023 to 14 May 2023, held this year in Singapore.

Over these five days, JTJB promises an exciting and informative conference where attendees can reignite old friendships and forge new connections. We have organised a number of fun activities for attendees and their companions to enjoy, which showcase the best that Singapore has to offer, not to mention the good food! In that attempt, we have chosen to host the Conference at Sofitel Singapore, located right at the heart of the city.

As the world continues to open up post-pandemic, ADVOC remains adaptive, providing opportunities for its members to connect across the globe and share learning points and experiences gathered from their home jurisdictions.

We look forward to welcoming you to Singapore in May 2023 for the ADVOC Joint Conference.

ABOUT SINGAPORE

Ideally positioned off the southern tip of the Malay Peninsula, Singapore is a sunny, tropical island offering world-class infrastructure, a dynamic business environment and rich culture. Singapore is home to an array of large regional companies and multinationals and is especially well positioned to capitalise on this.

Characterised by its open and free-market economy, Singapore provides one of the world's most business-friendly regulatory environments for local entrepreneurs and is ranked among the world's most competitive economies, earning it the reputation of being the "Switzerland of Asia".

The legal scene in Singapore is vibrant as well. Singapore has positioned itself as an attractive base upon which many international law firms have planted roots in, and where multi-national corporations have resided their headquarters (including their finance and legal teams) to oversee legal matters in South East Asia and the larger Asia Pacific region. Commonly known is also Singapore's popularity as the choice of venue for arbitration matters.

What further makes Singapore unique is its multi-cultural population, which can be broadly classified into four major communities, each offering different perspectives of life in Singapore in terms of culture, religion, food, language and history. In this regard, the activities that we have lined up for attendees and their companions during the length of the Conference allows for an immersive experience of Singapore's rich culture.

Singapore is a popular tourist destination and serves as a gateway to other tourist destinations in the region.
