

Dear ADVOC Friends and Colleagues,

The Advoc Maritime Practice Group has revamped itself as the Maritime, Logistics & International Trade Practice Group (MLI).

In the vast tapestry of global commerce, few industries are as essential and dynamic as maritime, logistics and international trade. These interconnected industries form the backbone of modern trade, facilitating the movement of goods and driving economic growth on a global scale.

The MLI Practice Group

Navigating the maritime, logistics and international trade industries isn't without its legal challenges. The maritime sector grapples with cases involving admiralty law, collisions, salvage, environmental regulations, ships sales and financing. International trade encounters disputes over contracts, tariffs, and sanctions. Transport faces complexities in logistics, liability, and regulatory compliance.

In this intricate web, complex legal issues can arise from jurisdictional conflicts, cargo damage claims, and contractual breaches as well as evolving regulations and technological shifts.

This dynamic landscape demands expertise in resolving disputes, ensuring compliance, and safeguarding the interests of stakeholders in these vital sectors.

Your Advoc MLI Practice Group has the experience, expertise and global reach to handle any issues arising out of these industries.

Our Practice Group members are listed below. Do reach out to us for assistance or if you wish to join the MLI Practice Group.

Warm regards,
K Murali Pany
Chairman
