

Broker Arbitration Service

Contractual clauses can provide only a limited amount of protection in the event of disputes and complaints.

Arbitration provides a realistic and more expedient alternative to Court proceedings when disputes arise.

Arbitration is a legal process where parties refer their dispute to an independent third party to make a decision based on the documentary evidence presented.

Ashfords LLP's marine department can offer a cost effective and speedy resolution to a dispute. Jonathan Hadley-Piggin specialises in the leisure marine sector, is a qualified arbitrator and has arbitrated numerous yacht related disputes including contractual issues, negligence, damage claims and collisions.

In the event of a customer complaint, or difficulties as between a buyer and a seller, our tailor made brokers' arbitration service would result in a legally binding arbitration award based on papers alone without the need for a court hearing or lengthy correspondence.

Our fee for providing this service is £1000 plus VAT for claims under £6000 (split between the parties according to liability) and for larger claims a fee will be agreed based on the amount of evidence provided.
